

## Remote Control Handheld Remote Control Systems

### **Features & Benefits**

*Universal  
Application*

*Integrated SL-III  
and Source  
Equipment Control*

*Color Graphics*

*Touch Screen  
Interface*

### **Introduction**

The Philips TSU7500 Pronto Pro Universal Remote Control gives you increased performance and flexibility. Use the macros to control your components with one-touch convenience. This remote features USB port, cursor key, hard buttons, 32MB Flash memory and IR & RF capability. It also incorporates a 3.8-inch (320 x 240 pixels) color LCD display and Alpha bending that allows transparent buttons and backgrounds. Operate the remote in the dark thanks to the white color backlit feature. The pick-up sensor has been built-in; it activates the remote control as soon as you pick it up.

Memory - 32MB nonvolatile flash System Requirements - Windows 98SE, ME, 2000, XP, CD ROM Drive, PC with Free USB Port, 75 MB of hard disk space, 64MB of RAM

Dimensions - Width 3.6 x Height 6.1 x Depth 1.1 inch (92 x 154 x 28mm) Weight - 0.6 pounds (0.2 kg)
